vomiting.
For help with any spill, leak, fire or exposure involving this material, call 800-535-5053.

Precautionary Statements

Do not breathe dusts or mists. Do not get in eyes, on skin or clothing. Wash face, hands and any exposed skin thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective gloves/protective clothing/eye protection/face protection.

General Information

Marco Micro4 is designed for soil, foliar, and dry fertilizer applications for prevention or correction of zinc, manganese, and boron deficiencies. Marco Micro4 can be banded with fertilizer, applied through drip irrigation, sprayed as a foliar with most plant protection products, and applied as a coating on dry fertilizer.

*Directions for Use/
Recommended Rates
combined to be "Rate
Recommendations"*

Soil Applications:
Pop-up or In-furrow Application: Not recommended
Broadcast, Band, Starter Fertilizer or 2x2 Application: Use 1-8 pints per acre with fertilizer or water.
Irrigation or Drip Application: Use 1-12 pints per acre into drip, open, or pivot irrigation water. Repeat as required.

Foliar Applications:
Ground: Apply 1-2 pints per acre in a minimum of 10 gallons of water per acre. Repeat as required.
Aerial: Apply 1-2 pints per acre in a minimum of 5 gallons of carrier per acre. Repeat as required.

Dry Fertilizer Coating:
Apply 1-6 quarts of Marco Micro4 per ton of dry fertilizer.

Compatibility

Marco Micro4 is compatible with most foliar nutrients and nitrogen fertilizers, including UAN. Do not mix with solutions sensitive to low pH or containing high levels of phosphates. A jar test is recommended prior to preparing blends of Marco Micro4 prior to preparing fertilizer blends with other products.

*Mixing and Handling
Instructions*

For blends with water, fertilizer, or pesticides start with the bulk carrier component (fertilizer or water), to a volume of about 2/3 the total finished blend. Under agitation, add any pesticides, adjuvants, or other nutrients and blend until mixed. Add Marco Micro4, and fill tank with the remaining bulk carrier of water or fertilizer and agitate until mixed.

For dry fertilizer impregnation, Marco Micro4 can be used on multiple types of granular fertilizer blends. Marco Micro4 should be evenly sprayed, not poured, on dry fertilizers and allowed to blend evenly and dry before application in the field.

Application, storage, and handling equipment should consist of polypropylene, plastic, fiberglass, or stainless steel.

Storage and Disposal

Do not store undiluted Marco Micro4 in mild steel, aluminum, or copper vessels. Do not contaminate water, food or feed by storage or disposal. Store away from excessive heat and keep out of reach of children and pets. Always store above 32 degrees F and **Do Not Freeze**. Dispose of in accordance with federal, state, and local regulations.

Limited Warranty & Precautionary Statement

IMPORTANT: READ BEFORE USE: Read the entire Directions for Use and the Warranty Disclaimer and Limitation of Liability before using this product. If terms are not acceptable, return the unopened product container at once.
